Exceptions Nos. 32 & 33 as shown as of the date on the commitment for title insurance.

XII

That exceptions Nos. 32 & 33 of the buyers (Defendant) policy of title insurance have been deleted.

XIV

2. An Injunctive judgment requiring that Defendant assist in, participate in and join as necessary in providing direction to Guaranty Title, Inc. that the funds be disbursed to Plaintiffs without delay.

Attorneys for Defendant

IN THE DISTRICT COURT OF THE THIRD JUDICIAL DISTRICT
 OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF OWYHEE

JAMES & BARBARA HILLIARD,

Plaintiffs,

vs.

MURPHY LAND COMPANY, LLC, an Idaho
 limited liability company,

Defendant.

Case No. CV-13-03004

ANSWER AND COUNTERCLAIM

Defendant Murphy Land Company, LLC ("Murphy Land"), by and through its undersigned attorneys of record, Hawley Troxell Ennis & Hawley LLP, and in answer to the Complaint filed by Plaintiffs James & Barbara Hilliard, admits, denies and alleges as follows:

GENERAL DENIAL

Defendant denies all allegations in the Complaint not specifically admitted herein.

SPECIFIC ADMISSIONS AND DENIALS

1. Defendant has insufficient information to admit or deny the allegations contained in Paragraph 1, but, on information and belief, believes them to be accurate.

2. Defendant admits the allegations in paragraph 2 of the Complaint.

3. In response to the allegations in paragraph 3 of the Complaint, Defendant admits that certain real property commonly known as Crystal Springs Farm or Crystal Springs Ranch was the subject of a sale between Plaintiffs as sellers and Defendant as buyer and that such property is located in Owyhee County, Idaho.

4. In response to the allegations in paragraph 4 of the Complaint, Defendant admits that the parties executed RE-11 Addendum No. 4 as an addendum to the Purchase and Sale Agreement for Crystal Springs Farm and that a copy of Re-11 Addendum No. 4 is attached to Plaintiff's Complaint. As to the allegation that RE-11 Addendum No. 4 was agreed to by the parties with the intent that it be executed in the State of Idaho, Defendant is uncertain what is meant by such allegation and therefore denies it.

5. In response to the allegations in paragraph 5 of the Complaint, Defendant will not contest jurisdiction.

6. In response to the allegations in paragraph 6 of the Complaint, Defendant will not contest venue in this court.

7. Defendant has insufficient information to admit or deny the allegations contained in Paragraph 7, but, on information and belief, believes them to be accurate.

8. In response to the allegations in paragraph 8 of the Complaint, Defendant understands the reference to "the farm" to refer to Crystal Springs Farm, and based on that understanding, admits the allegations in paragraph 8.

9. In response to the allegations in paragraph 9 of the Complaint, Defendant understands the reference to "the farm" to refer to Crystal Springs Farm, and based on that understanding, admits the allegations in paragraph 9.

10. In response to the allegations in paragraph 10 of the Complaint, Defendant avers that REI-11 Addendum No. 4 speaks for itself and is the best evidence of its content. Defendant admits that RE-11 Addendum No. 4 provides that Plaintiffs would deposit the amount of three million dollars with Guaranty Title, Inc. and Defendant admits that Plaintiffs deposited the amount of three million dollars with Guaranty Title, Inc. pursuant to REI-11 Addendum No. 4.

11. In response to the allegations in paragraph 11 of the Complaint, Defendant avers that REI-11 Addendum No. 4 speaks for itself and is the best evidence of its content.

12. In response to the allegations in paragraph 12 of the Complaint, Defendant is informed and believes that exceptions Nos. 32 & 33 of the buyer's policy of title insurance have been deleted.

13. In response to the allegations in paragraph 13 of the Complaint, Defendant avers that REI-11 Addendum No. 4 speaks for itself and is the best evidence of its content. Defendant further avers that the portion of RE-11 Addendum No. 4 excerpted in paragraph 13 is incomplete in that it omits other relevant language of RE-11 Addendum No. 4.

14. In response to the allegations in paragraph 14 of the Complaint, Defendant admits that Plaintiffs have requested that Defendant direct Guaranty Title, Inc. disburse the three million

dollars to Plaintiffs and that Defendant has not agreed to do so. The allegation that Defendant is and has been in legal possession of the farm since December 30, 2010 calls for a legal conclusion to which no response is required; to the extent a response is required, Defendant denies such allegation. Defendant admits that it has had possession of Crystal Springs Farm since May 2, 2012.

15. The allegations in paragraph 15 of the Complaint call for a legal conclusion to which no response is required; to the extent a response is required, Defendant denies the allegations.

16. The allegations in paragraph 16 of the Complaint call for a legal conclusion to which no response is required; to the extent a response is required, Defendant denies the allegations.

17. The allegations in paragraph 17 of the Complaint call for a legal conclusion to which no response is required; to the extent a response is required, Defendant denies the allegations.

RESPONSE TO PRAYER FOR RELIEF

In response to the relief prayed for in the Complaint, Defendant denies that Plaintiff is entitled to the relief requested therein.

AFFIRMATIVE DEFENSES

The following defenses are not stated separately as to each claim for relief or allegation of Plaintiff. Nevertheless, the following defenses are applicable or applicable, to any and all of Plaintiff's claims for relief. In addition, Defendants, in asserting the following defenses, do not admit that the burden of proving allegations or denials contained in the defenses is upon them,

but, to the contrary, assert that by reason of denial and/or by reason of relevant statutory and judicial authority, the burden of proving the facts relevant to many of the defenses and/or burden of proving the inverse of the allegations contained in many of the defenses is upon Plaintiff. Moreover, Defendants do not admit, in asserting in any defense, any responsibility or liability but, to the contrary, specifically deny any and all allegations of responsibility and liability alleged in the complaint.

A. Failure to State a Claim. Plaintiffs' Complaint fails to state a claim against the Defendant upon which relief can be granted and should be dismissed pursuant to Rule 12(b)(6) of the Idaho Rules of Civil Procedure.

B. Estoppel. Plaintiffs are barred from maintaining this action against the Defendant based upon the doctrine of estoppel.

C. Reservation of Rights. Defendant reserves the right to raise additional affirmative defenses based upon information obtained during the discovery process.

REQUEST FOR COSTS AND ATTORNEY FEES

Defendant requests that it be awarded its reasonable costs, including attorney fees, incurred in defending this action.

PRAYER FOR RELIEF

WHEREFORE, the Defendant prays as follows:

1. That Plaintiffs' complaint be dismissed with prejudice and that Plaintiffs take nothing thereunder;
2. That judgment be entered in favor of Defendant;

3. That Defendant be awarded its reasonable costs, including attorney fees, incurred in defending this action; and
4. For such other and further relief as the Court deems just and proper.

COUNTERCLAIM

COMES NOW Counterclaimant Murphy Land, LLC ("Murphy Land"), by and through its counsel of record, Hawley Troxell Ennis & Hawley LLP, and by way of counterclaim against James & Barbara Hilliard (the "Hilliards"), complains and alleges as follows:

1. Murphy Land is a limited liability company organized under the laws of the state of Idaho.
2. On information and belief, the Hilliards are husband and wife and are residents of the State of Florida.
3. The Court has jurisdiction over this matter pursuant to Idaho Code §§ 1-705 and 5-514.
4. Venue is proper in Owyhee County, Idaho pursuant to Idaho Code §5-404.

FACTUAL ALLEGATIONS

5. During 2010, James Hilliard and representatives of Murphy Land discussed the potential purchase of Crystal Springs Farm. During those discussions, Murphy Land representatives communicated to James Hilliard that it was interested in purchasing Crystal Springs Farm for the purpose of and with the intent to grow crops thereon and that it did not intend to continue leasing it to the then-current occupant of Crystal Springs Farm, Jay P. Clark. James Hilliard represented that, if Murphy Land purchased Crystal Springs Farm, he would ensure that Jay P. Clark would vacate Crystal Springs Farm prior to closing.

6. On November 5, 2010, Murphy Land executed a purchase and sale agreement with the Hilliards for the purchase of Crystal Springs Farm, an express condition of which was that "Sellers existing lease with Jay Clark to be terminated" prior to closing on December 28, 2010.

7. When Jay Clark had not vacated Crystal Springs Farm as of December 28, 2010, the Hilliards and Murphy Land executed Re-11 Addendum No. 2 to extend the date of closing to December 29, 2010.

8. When Jay Clark had not vacated Crystal Springs Farm as of December 29, 2010, the Hilliards and Murphy Land executed Re-11 Addendum No. 3 to extend the date of closing to December 30, 2010.

9. When Jay Clark had not vacated Crystal Springs Farm as of December 30, 2010, the Hilliards and Murphy Land executed Re-11 Addendum No. 4 in recognition of the fact that Jay Clark's continuing possession of Crystal Springs Farm might prevent Murphy Land from growing crops thereon, that Murphy Land might be required to initiate legal action to remove Jay Clark from Crystal Springs Farm, and that Murphy Land might be otherwise damaged by Jay Clark's continued refusal to vacate Crystal Springs Farm.

10. Pursuant to Re-11 Addendum No. 4, the Hilliards deposited three million dollars into an escrow account at Guaranty Title, Inc. (the "Escrow Funds") to ensure that Murphy Land would be compensated for damages resulting from the loss or delay of possession of Crystal Springs Farm.

11. On December 30, 2010, after Murphy Land and the Hilliards executed RE-11 Addendum No. 4, the Hilliards conveyed Crystal Springs Farm to Murphy Land.

12. Murphy Land has fully performed all obligations required of it under the Purchase and Sale Agreement and the several addenda thereto.

Count I
(Declaratory Judgment)

13. Murphy Land incorporates herein by reference each and every allegation set forth in paragraphs 1-12 above, inclusive, as though said paragraphs were set forth herein in full.

14. Re-11 Addendum No. 4 provides that "Upon completion of such litigation and appeals, these funds shall be available to the extent determined by a court of competent jurisdiction of the amount of purchaser's damage, if any, for loss or delay of possession of real estate purchased herein."

15. By filing its Complaint for Declaratory and Injunctive Judgment against Murphy Land, the Hilliards have waived the "Upon completion of such litigation and appeals" contingency in Re-11 Addendum No. 4; as a result, the Escrow Funds are to be made available to Murphy Land in the amount of damages suffered by Murphy Land for loss or delay of possession of Crystal Springs Farm, the extent of which is to be determined by this Court.

16. Despite Murphy Land's extensive efforts to remove Jay P. Clark from Crystal Springs Farm, Jay P. Clark did not vacate Crystal Springs Farm until on or about May 2, 2012.

17. Murphy Land was damaged by loss and delay of possession of Crystal Springs Farm in an amount in excess of three million dollars. As a result, Murphy Land is entitled to all of the Escrow Funds.

CLAIM FOR COSTS AND ATTORNEY FEES

18. Murphy Land repeats herein by reference each and every allegation set forth in paragraphs 1-17 above, inclusive, as though said paragraphs were set forth herein in full.

19. Murphy Land is entitled to recover its costs and attorney fees in pursuing the above-alleged counterclaim pursuant to Idaho Rules of Civil Procedure 54, *et seq.* and Idaho Code § 12-120(3).

REQUEST FOR EXPEDITED HEARING

Pursuant to Rule 57(a) of the Idaho Rules of Civil Procedure, Murphy Land requests a speedy hearing of this matter and that the Court advance such hearing on its calendar.

PRAYER FOR RELIEF

WHEREFORE, Counterclaimants pray for judgment as follows:

1. For a declaration that Murphy Land is entitled to all three million dollars of the Escrow Funds, and that such funds be immediately disbursed to Murphy Land;
2. For an order directing Guaranty Title, Inc. to release all three million dollars of the Escrow Funds to Murphy Land;
3. For such other and further relief as the Court deems just and proper.

MOTION FOR SUMMARY JUDGMENT

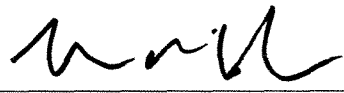

Pursuant to I.R.C.P. 56(a) and 56(b), Defendant/Counterclaimant Murphy Land Company, LLC ("Murphy Land") moves this Court to enter summary judgment in its favor on all claims and counterclaims asserted in this matter and to declare and order that Murphy Land is entitled to the funds currently deposited in escrow with Guaranty Title.

This motion is made on grounds that there is no genuine issue of material fact that that the escrowed funds should be released to Murphy Land because the agreement between the

parties regarding those funds clearly provides that they are to be made available to compensate Murphy Land for damages from delayed possession of Crystal Springs Farm, and there is no genuine dispute that Murphy Land's damages exceed the amount in escrow. These grounds are explained further in the accompanying supporting memorandum. This motion is also supported by the affidavits of Frank Tiegs and Matthew Gordon filed this same day.

Defendant/Counterclaimant.)	

FRANK TIEGS, being first duly sworn upon oath, deposes and states as follows:

1. I make this affidavit and the statements herein based upon my personal knowledge.
2. I am a member, co-manager, and 50% owner of Murphy Land Company, LLC ("Murphy Land"). Lance Funk is the other member, co-manager, and 50% owner of Murphy Land. A summary of my professional experience is attached hereto as Exhibit A.
3. In 2010, on behalf of Murphy Land, I began negotiating with Plaintiff James Hilliard regarding the potential purchase of the real property commonly known as Crystal Springs

Farm (the "Farm"), located in Owyhee County, Idaho.

4. One of the reasons Murphy Land was interested in purchasing the Farm was because I determined that, due to its location near CJ Strike Reservoir, it was the earliest ground in Idaho for potatoes. As a result, if Murphy Land owned the Farm, it would be able to plant and harvest potatoes there earlier at any other farm in Idaho. This is particularly valuable because growers get a premium price for the earliest potatoes harvested each year.

5. During the negotiations with James Hilliard in late 2010 to purchase the Farm, I became aware that Jay Clark was a tenant on the Farm. I informed Mr. Hilliard that Murphy Land intended to farm the Farm itself and that Murphy Land did not want Jay Clark to remain on the Farm. Mr. Hilliard informed me that Jay Clark was a family friend, and that he would ensure that Jay Clark had vacated the Farm by the time title passed to Murphy Land.

6. On November 5, 2010, Murphy Land, as buyer, and James and Barbara Hilliard (the "Hilliards"), as sellers, executed a purchase and sale agreement to purchase the Farm ("Agreement"). A true and correct copy of the Agreement is attached hereto as Exhibit B. An express condition of the Agreement was that the Hilliards lease with Jay Clark would be terminated prior to closing, on or before December 28, 2010.

7. As the closing date approached, it became apparent that, contrary to James Hilliard's representation, Jay Clark did not intend to vacate the Farm prior to closing. As a result, after extending the closing date, Murphy Land and the Hilliards agreed that \$3,000,000 of the purchase price for the Farm would be held in escrow to compensate Murphy Land for any damages caused by delays in possessing the Farm. On December 29, 2010, Murphy Land and the Hilliards executed RE-11 Addendum No. 4 to memorialize that agreement, and the Hilliards deposited three

million dollars into an escrow account at Guaranty Title, Inc. A true and accurate copy of RE-11 Addendum No. 4 is attached hereto as Exhibit C.

8. On December 30, 2010, the Hilliards conveyed the Farm to Murphy Land by warranty deed, a true and accurate copy of which is attached hereto as Exhibit D.

9. As of December 30, 2010, Jay Clark remained on the Farm, despite the fact that he had been informed that Murphy Land did not want him to remain as a tenant on the Farm. On or about January 14, 2011, Lance Funk and I met with Jay Clark, and we repeated that Murphy Land did not want him to remain as a tenant on the Farm, and I demanded that Jay Clark vacate the Farm. Jay Clark refused to vacate the Farm, he claimed that he had a right to continue to possess the Farm for another nine years based upon a purported written lease with the Hilliards, and he stated that he would vacate the Farm only if he was paid two million dollars and his father, John Clark, was paid \$950,000.

10. Murphy Land purchased the Farm with the intention of growing potatoes and other crops thereupon and intended to plant crops on the Farm in early 2011.

11. Jay Clark's continued presence on the Farm prevented Murphy Land from entering the Farm and preparing it for the planting of crops in 2011 and prevented Murphy Land from farming the Farm until May 2, 2012.

12. In 2011 and 2012, representatives of Murphy Land repeatedly notified Jay Clark that he had no right to be upon the Farm and that he must vacate the Farm. Each time, Jay Clark refused to vacate.

13. In early 2011, Murphy Land hired Hawley Troxell Ennis & Hawley LLP to assist with removing Jay Clark from the Farm, and I instructed my attorney to attempt to evict Jay Clark

as soon as possible. At my direction, on February 17, 2011, Murphy Land filed a lawsuit against Jay Clark in Owyhee County, Idaho, and on February 23, 2011, moved for a preliminary injunction to remove Jay Clark from the Farm immediately. Murphy Land continued to prosecute that lawsuit until Jay Clark filed for bankruptcy. At that time, I directed the attorney to seek immediate relief from the automatic stay so that Murphy Land could continue with the efforts to remove Jay Clark from the Farm and take possession of the Farm.

14. Meanwhile, in the Spring of 2011, Murphy Land attempted to move its farming equipment onto the Farm. In response, Jay Clark called the Owyhee County Sheriff, who advised representatives of Murphy Land that they should not continue to attempt to move farming equipment onto the Farm.

15. Murphy Land was prevented from possessing and farming the Farm until May 2, 2012, when Jay Clark was finally evicted by the Owyhee County Sheriff. After Jay Clark vacated the Farm, Murphy Land immediately took possession and began farming.

16. Murphy Land was ready, willing, and able to enter the Farm in January 2011 and begin preparing it for the planting of potatoes and other crops, and if not for Jay Clark's refusal to vacate the Farm, it would have done so. I prepared a plan for farming the Farm in 2011 (the "2011 Farm Plan"), the details of which are in Exhibit E-1, attached hereto. I prepared the 2011 Farm Plan based upon my background and my extensive experience farming similar crops in similar locations.

17. I also prepared a plan for Murphy Land to farm the Farm in 2012 if it had obtained possession of the Farm at or prior to the beginning of 2012 (the "2012 Farm Plan"). The 2012 Farm Plan details are in attached Exhibit E-2. I prepared the 2012 Farm Plan based upon my

background and my extensive experience farming similar crops in similar locations.

18. Lance Funk and I are also members and 50% owners of Owyhee Farming Company, LLC ("Owyhee Farming"). Owyhee Farming entered into a lease with Clark's Crystal Springs Ranch, LLC, to farm certain acreage on the Farm in 2011 and 2012. Owyhee Farming grew 458.3 acres of Shepody potatoes on the Farm in 2011 and 369.3 acres of Shepody potatoes and 189.5 acres of Ranger potatoes in 2012. Owyhee Farming entered into that lease because Murphy Land was engaged in a legal dispute with Jay Clark in which Murphy Land took the position that Jay Clark did not have a valid leasehold interest in the Farm. In preparing the 2011 Farm Plan, I initially include the acreage for the Shepody potatoes, and in preparing the 2012 Farm Plan, I initially included the acreage for the Shepody and Ranger potatoes. Because Murphy Land and Owyhee Farming are owned by Lance Funk and me I have not included in the damages calculation the profits from the land farmed by Owyhee Farming -- those acres are included in the 2011 and 2012 Farm Plan, but I have offset Owyhee Farming's profits in my calculation of lost profits for Murphy Land. Owyhee Farming paid Clark's Crystal Springs Ranch, LLC \$300,000 in lease payments for 2011 and 2012, however.

19. I prepared projections for costs and revenues for the 2011 Farm Plan, and I estimated that Murphy Land would have realized a profit of \$3,813,447 (including the Shepody potatoes) if it had obtained possession of the Farm on December 30, 2010. I prepared those projections based upon my background and my extensive experience farming similar crops in similar locations. Owyhee Farming made a profit of \$808,640.33 from farming Shepody potatoes at the Farm in 2011. Excluding that amount, based upon my estimates, Murphy Land lost \$3,004,807.81 in profits by being denied possession of the Farm in 2011. See Exhibit E-1. I have

also calculated lost profits based upon actual revenue and cost figures from comparable farms operated by my entities. Because I operate a large-scale farming operation and my farming practices are consistent among my various entities and at the various farms I operate, the costs and revenues for particular crops are similar among the various farms. The basis for my calculations is as follows:

a) If Murphy Land had obtained possession of the Farm on December 30, 2010, Murphy Land would have grown 451.3 acres of Norkotah potatoes on the Farm in 2011, and I estimated that Murphy Land would have earned a net profit of \$1,635,059.90 from growing that crop. That estimated profit was based upon: (1) estimated revenue per acre of \$6,400.00, which was based, in turn, on an estimated yield of 20 tons per acre and an estimated sales price of \$320 per ton; and (2) an estimated cost per acre of \$2,777.00. See Exhibit E-2 at ML0000328. In comparison, in 2011, one of my other entities farmed Norkotah potatoes at B. Wolfe Farm, which is located near Grandview, Idaho, across CJ Strike Reservoir from the Farm. Because the B. Wolfe Farm is near the Farm, I would expect the yields at the two to be similar. The costs and sales price would also be similar. The Norkotah potatoes grown at B. Wolfe Farm yielded 20.83 tons per acre and sold for \$308.05 per ton, and the cost to grow those potatoes was approximately \$1,987.12 per acre. Attached as Exhibit F are summaries of the cost and revenue numbers for the Norkotah potatoes grown at B. Wolfe Farm in 2011, which were prepared by my employees based upon data kept in the regular course of business, together with supporting data. (Note that identifying information for purchasing parties has been redacted from this and other exhibits.) Applying those actual numbers rather than my estimates, Murphy Land would have earned a net profit of \$1,999,061.10 from growing Norkotah potatoes at the Farm in 2011.

b) If Murphy Land had obtained possession of the Farm on December 30, 2010, Murphy Land would have grown 1061.7 acres of DNS wheat on the Farm in 2011, and I estimated that Murphy Land would have earned a net profit of \$663,350.16 from growing that crop. That estimated profit was based upon: (1) estimated revenue per acre of \$1,222.80, which was based, in turn, on an estimated yield of 120 bushels per acre, and an estimated sales price of \$10.19 per bushel; and (2) an estimated cost per acre of \$598.00. See Exhibit E-1 at ML000329. In 2011, Pasco Farming, Inc., one of my other entities, farmed DNS wheat in fields near Burley, Idaho. Because the fields farmed by Pasco Farming, Inc. are approximately 2000 feet higher in elevation than the Farm, I would expect the yields to be slightly higher at the Farm. The costs to grow the wheat and the sales price would have been similar. The DNS wheat grown by Pasco Farming, Inc. yielded, on average, 115.5 bushels per acre. DNS wheat sold, on average, for \$10.58 per bushel. The cost for Pasco Farming to grow wheat in 2011 was approximately \$554.77 per acre. Attached as Exhibit G are summaries of the cost and revenue numbers for the DNS wheat grown by Pasco Farming, Inc. in 2011, which were prepared by my employees based upon data kept in the regular course of business, together with supporting data. Applying those actual numbers rather than my estimates, Murphy Land would have earned a net profit of \$708,387.47 from growing DNS wheat at the Farm in 2011.

c) If Murphy Land had obtained possession of the Farm on December 30, 2010, Murphy Land would have grown 736.6 acres of corn on the Farm in 2011, and I estimated that Murphy Land would have earned a net profit of \$482,473.00 from growing that crop. That estimated profit was based upon: (1) estimated revenue per acre of \$1,575.00, which was based, in turn, on an estimated yield of 6.3 tons per acre and an estimated sales price of \$250 per ton; and

(2) an estimated cost per acre of \$920.00. See Exhibit E-1 at ML000330. In comparison, in 2011, Owyhee Farming farmed corn at Murphy Flats Farm, in Murphy, Idaho, which is approximately 45 minutes from the Farm. Because Murphy Flats is close to the Farm but has slightly cooler temperatures, I would expect corn yields at Murphy Flats to be slightly lower than at the Farm. The sales price for that corn would be similar to corn grown at the Farm. The corn grown at Murphy Flats in 2011 yielded, on average, 6.49 tons per acre and sold for, on average, \$241.38 per ton. Attached as Exhibit H are summaries of the revenue numbers for the corn grown at Murphy Flats in 2011, which were prepared by my employees based upon data kept in the regular course of business, and supporting data. The actual cost to grow corn at the Farm in 2012 was \$697.04 per acre. Attached as Exhibit I is a summary of the cost numbers for corn and other crops grown at the Farm in 2012, which was prepared by my employees based upon data kept in the regular course of business, together with supporting data. That cost would likely be similar to the actual cost to grown corn at the Farm in 2011. Applying those actual numbers rather than my estimates, Murphy Land would have earned a net profit of \$640,485.63 from growing corn at the Farm in 2011.

d) If Murphy Land had obtained possession of the Farm on December 30, 2010, Murphy Land would have grown 450.1 acres of alfalfa on the Farm in 2011, and I estimated that Murphy Land would have earned a net profit of \$223,924.75 from growing that crop. That estimated profit was based upon: (1) estimated revenue per acre of \$747.50, which was based, in turn, on an estimated yield of 6.5 tons per acre and an estimated sales price of \$115 per ton; and (2) an estimated cost per acre of \$250.00. See Exhibit E-1 at ML000326, 321. In comparison, in 2011, Owyhee Farming farmed alfalfa at various farms in Twin Falls County, Idaho. I would expect the alfalfa yields on those farms to be similar to the yield at the Farm. The sales price and

cost of growing alfalfa would also be similar. Alfalfa grown by Owyhee Farming in 2011 sold for \$800.00 per acre, and the cost to grow that alfalfa was approximately \$239.23 per acre. Attached as Exhibit J is a contract showing the revenue per acre for the alfalfa grown by Owyhee Farming in 2011, together with a summary of the costs per acre for that alfalfa, which was prepared by my employees based upon data kept in the regular course of business. Applying those actual numbers rather than my estimates, Murphy Land would have earned a net profit of \$252,402.57 from growing alfalfa at the Farm in 2011.

e) In sum, applying actual numbers for revenue and cost per acre from comparable farms operated by my entities in 2011 and from the Farm in 2012 to the 2011 Farm Plan, and excluding the expected profits from the Shepody potatoes farmed by Owyhee Farming, Murphy Land would have earned a net profit of approximately \$3,600,336.60 if it had been able to gain possession of the Farm on or near December 30, 2010. After repeated demands for unjust enrichment damages, Murphy Land received certain payments from Jay Clark in 2011, under protest and without waiver of its state law claims. The payments actually received by Murphy Land from Jay Clark in 2011 totaled \$198,544.92, but Owyhee Farming paid Jay Clark \$200,000 to farm the Shepody potatoes on the Farm in 2011. If the payment to Jay Clark is subtracted, and the payment from Jay Clark added to the lost profits amount, Murphy Land lost approximately \$3,601,791.70 by being denied possession of the Farm in 2011.

20. I also prepared projections for the 2012 Farm Plan which indicated that Murphy Land would have realized a profit of \$3,838,219.98 if it had possession of the Farm at the beginning of 2012. See attached Exhibit E-2. I prepared those projections based upon my background and my extensive experience farming similar crops in similar locations. Because

Murphy Land was unable to enter the Farm until May 2, 2012, it was unable to farm according to the 2012 Plan. As a result, although Murphy Land was able to farm the Farm for part of 2012, it had to adjust the 2012 Plan and, in some cases, plant different crops. For example, Murphy Land was unable to plant Hard Red Winter (HRW) Wheat at the Farm in 2012. Because Murphy Land did not gain possession of the Farm until May 2, 2012, it made a profit of only \$1,767,231 in 2012. Owyhee Farming made a profit of \$1,386,703 from farming Shepody and Rangers potatoes on the Farm in 2012. Sere attached Exhibit E at ML000001. The basis for those calculations, and for a revised calculation of Murphy Land's lost profits based upon actual revenue and cost figures from the Farm and comparable farms, is as follows:

a) If Murphy Land had possession of the Farm at the beginning of 2012, Murphy Land would have grown 274.6 acres of Rangers potatoes on the Farm in 2012, and I estimated that Murphy Land would have earned a net profit of \$593,685.20 from growing that crop. That estimated profit was based upon: (1) estimated revenue per acre of \$3,740.00, which was based, in turn, on an estimated yield of 22 tons per acre and an estimated sales price of \$170 per ton; and (2) an estimated cost per acre of \$1,578.00. See Exhibit E-2 at ML000335. Owyhee Farming actually farmed 189.5 acres of Rangers potatoes at the Farm in 2012 at an actual cost of \$1079.43 per acre, and those acres yielded, on average, 16 tons per acre and sold for \$151.16 per ton. The actual cost and revenue numbers for the Rangers potatoes grown by Owyhee Farming in 2012 are summarized in Exhibit E at ML000001, which was prepared by my employees based upon data kept in the regular course of business. Applying those actual numbers rather than my estimates, Murphy Land would have earned a net profit of \$367,725.09 from growing Rangers potatoes according to the 2012 Plan. Deducting the 189.5 acres of Rangers potatoes from the

274.6 acres that Murphy Land planned to farm in 2012 and applying the actual revenue numbers rather than my estimates for the remaining 85.1 acres, Murphy Land would have earned an additional \$119,310.66, over and above what Owyhee Farming earned, had it been able to grow Rangers potatoes according to the 2012 Plan.

b) If Murphy Land had possession of the Farm at the beginning of 2012, Murphy Land would have grown 652.1 acres of HRW wheat on the Farm in 2012, and I estimated that Murphy Land would have earned a net profit of \$409,518.80 from growing that crop. That estimated profit was based upon: (1) estimated revenue per acre of \$1,038, which was based, in turn, on an estimated yield of 120 bushels per acre and an estimated sales price of \$8.65 per bushel; and (2) an estimated cost per acre of \$410.00. See Exhibit E-2 at ML000336. Because Murphy Land was prevented from taking possession of the Farm until May 2, 2012, it could not grow HRW wheat on the Farm that year. In comparison, Owyhee Farming farmed HRW wheat in 2012 at Clover Hollow and Triple C, which are located near Mountain Home, Idaho, less than one hour drive from the Farm. Because Clover Hollow and Triple C Farms are at higher elevations than the Farm, I would expect the yields for HRW wheat on those farms to be slightly lower than at the Farm, but the costs to raise the wheat and the sales price would be similar. The HRW wheat grown by Owyhee Farming in 2012 at Clover Hollow and Triple C Farms yielded, on average, 142.5 bushels per acre; it sold for, on average, \$8.15 per bushel; and the cost to grow that wheat averaged approximately \$359.85 per acre. Attached as Exhibit K are summaries of the cost and revenue numbers for the HRW wheat grown by Owyhee Farming in 2012, which were prepared by my employees based upon data kept in the regular course of business, together with supporting data. Applying those actual numbers rather than my estimates, Murphy Land would have earned a

net profit of \$522,674.45 from growing HRW wheat at the Farm in 2012. Instead, Murphy Land harvested white wheat on the Farm in 2012, a crop that is less profitable. Murphy Land earned a net profit of \$443,305.10 on the white wheat grown on the Farm in 2012. As a result, Murphy Land made \$79,369.35 less profit than anticipated from farming wheat at the Farm in 2012.

Attached as Exhibit L is documentation of the revenue for the white wheat grown on the Farm in 2012, including spreadsheets that were prepared by my employees based upon data kept in the regular course of business. Exhibit I includes cost data for the white wheat.

c) If Murphy Land had possession of the Farm at the beginning of 2012, Murphy Land would have grown 431.8 acres of corn on the Farm in 2012, and I estimated that Murphy Land would have earned a net profit of \$329,463.40 from growing that crop. That estimated profit was based upon: (1) estimated revenue per acre of \$1,449.00, which was based, in turn, on an estimated yield of 6.3 tons per acre and an estimated sales price of \$230 per ton; and (2) an estimated cost per acre of \$686.00. See Exhibit E-2 at ML000337. After gaining possession of the Farm on May 2, 2012, Murphy Land grew 471.1 acres of corn, which yielded 7.0 tons per acre and sold for \$263.33 per ton with a cost of \$697.04 per acre. Murphy Land made a profit of \$540,006.38 on that corn. Attached as Exhibit M are documents, showing revenue for the corn grown at the Farm in 2012, which were prepared by my employees based upon data kept in the regular course of business. Exhibit I includes cost data for the corn. Applying those actual numbers rather than my estimates for the 431.8 acres that Murphy Land planned to plant to corn in 2012, Murphy Land would have earned a net profit of \$494,959.39 if it had grown corn according to the 2012 Farm Plan. Because it farmed more corn than planned, Murphy Land made \$45,046.99 more profit than anticipated from farming corn at the Farm in 2012.

d) If Murphy Land had possession of the Farm at the beginning of 2012, Murphy Land would have grown 1,085.3 acres of pinto beans on the Farm in 2012, and I estimated that Murphy Land would have earned a net profit of \$817,230.90 from growing that crop. That estimated profit was based upon: (1) estimated revenue per acre of \$1,176.00, which was based, in turn, on an estimated yield of 28 hundredweight (cwt) per acre and an estimated sales price of \$42 per cwt; and (2) an estimated cost per acre of \$423.00. After gaining possession of the Farm on May 2, 2012, Murphy Land grew 824.2 acres of pinto beans, which yielded 29.9 cwt per acre and sold for \$42 per cwt, at a cost of \$473.49 per acre. Murphy Land made a profit of \$644,775.82 on those pinto beans. Attached as Exhibit N are documents showing the revenue for the pinto beans grown at the Farm in 2012, including spreadsheets prepared by my employees based upon data kept in the regular course of business. Exhibit I includes cost data for the pinto beans. Applying the actual revenue numbers rather than my estimates for the 1085.3 acres that Murphy Land planned to plant to pinto beans in 2012, Murphy Land would have earned a net profit of \$849,041.04 if it had grown pinto beans according to the 2012 Farm Plan. As a result, Murphy Land made \$204,265.22 less than anticipated from farming pinto beans at the Farm in 2012.

e) If Murphy Land had possession of the Farm at the beginning of 2012, Murphy Land would have grown 344.9 acres of sugar beets on the Farm in 2012, and I estimated that Murphy Land would have earned a net profit of \$375,941.00 from growing that crop. That estimated profit was based upon: (1) estimated revenue per acre of \$1,925.00, which was based, in turn, on an estimated yield of 35 tons per acre and an estimated sales price of \$55 per ton; and (2) an estimated cost per acre of \$835.00. See Exhibit E-2 at ML000340. The delay in possession of the Farm until May 2, 2012 caused Murphy Land to be unable to grow sugar beets on the Farm in

2012. In comparison, Owyhee Farming grew sugar beets at Clover Hollow and Triple C Farms in 2012, and those farms produced an average yield 36.5 tons of sugar beets per acre, which sold for, on average, \$48.61 per ton. The cost to grow those sugar beets averaged \$830.54 per acre. Attached as Exhibit O are documents showing the cost and revenue numbers for the sugar beets grown by Owyhee Farming in 2012, including spreadsheets which were prepared by my employees based upon data kept in the regular course of business and supporting data. Applying those actual numbers rather than my estimated numbers, Murphy Land would have earned a net profit of \$325,490.75 if it had grown sugar beets according to the 2012 Farm Plan.

f) If Murphy Land had possession of the Farm at the beginning of 2012, Murphy Land would have grown 873.9 acres of alfalfa on the Farm in 2012, and I estimated that Murphy Land would have earned a net profit of \$201,433.95 from growing that crop. That estimated profit was based upon: (1) estimated revenue per acre of \$308 per acre, which was based, in turn, on an estimated yield of 2.2 tons per acre and an estimated sales price of \$140 per ton; and (2) an estimated cost per acre of \$77.50. See Exhibit E-2 at ML000338. After gaining possession of the Farm on May 2, 2012, Murphy Land harvested 917 acres of alfalfa, in a first cutting, which yielded 1.1 tons per acre and sold for \$130.05 per ton, at a cost of \$36.59 per acre. See Exhibit E at ML000001. Murphy Land also harvested additional cuttings of 153.5 acres of alfalfa, which yielded, in total, 2.7 acres per ton and sold for \$140 per ton, at an additional cost of \$109.76 per acre. All told, Murphy Land made a profit of \$139,143.47 from growing alfalfa on the Farm in 2012. Attached as Exhibit P is documentation showing the revenue numbers for the alfalfa grown on the Farm in 2012, including spreadsheets prepared by my employees based upon data kept in the regular course of business. Exhibit I includes cost data for the alfalfa. Applying

the actual revenue numbers for the first cutting in 2012 rather than my estimates for the 873.9 acres of alfalfa that Murphy Land planned to harvest from the Farm in 2012, Murphy Land would have earned a profit of \$93,039.76 if it had harvested alfalfa in accordance with the 2012 Farm Plan. As a result, Murphy Land earned \$46,123.61 more from alfalfa in 2012 than it would have had it farmed according to the 2012 Plan.

g) Murphy Land did not receive any payments from Jay Clark for the Farm for 2012. Owyhee Farming paid Jay Clark \$100,000 to farm the Shepody potatoes in 2012.

h) Based upon my estimates of cost and revenue, the delay in possession of the Farm until May 2, 2012 caused Murphy Land to suffer a loss of approximately \$684,285.90 in 2012. Based upon actual cost and revenue numbers from the Farm and comparable farms, the delay in possession of the Farm until May 2, 2012 caused Murphy Land to suffer a loss of approximately \$631,934.64 in 2012.

21. Based upon my estimates of cost and revenue, the delay in possession of the Farm until May 2, 2012 caused Murphy Land to suffer a total loss of \$3,790,548.80.

22. Based upon the 2011 and 2012 Farm Plans and actual cost and revenue numbers from the Farm and comparable farms, the delay in possession of the Farm until May 2, 2012 caused Murphy Land to suffer a total loss of approximately \$4,033,726.30, without taking into consideration the profits earned by Owyhee Farming from farming potatoes on the Farm in 2011 and 2012. If the \$300,000 payments made by Owyhee Farming to lease acreage at the Farm are included, the total loss suffered by Murphy Land equals approximately \$4,333,726.30.

FRANK TIEGS
4200 RIVERHAVEN, Pasco, WA 99301

Graduated from High School at Melba, ID in 1975

Began farming in the Columbia Basin in 1976, initially providing custom farming services, and currently farms over 100,000 acres in Oregon, Washington and Idaho. All crops are grown and owned by various entities owned by me. Crops include potatoes, alfalfa, timothy hay, wheat, sugar beets, onions, field corn, sweet corn, cherries, apples, wine grapes, and blueberries.

In 1986, acquired Baker Produce, Inc. located in Kennewick, WA – a fresh pack potato operation that processes fresh potatoes year round for both the wholesale and retail trade. In 1990, acquired an apple packing warehouse in Buena, WA and constructed several large CA (controlled atmosphere) facilities. Apples are grown on acreage owned or controlled, through affiliates, by Baker Produce and are packed and then shipped to both domestic and foreign markets.

In 1991, co-founded Western Mortgage & Realty Company located in Pasco, WA – a highly diversified investment company dealing principally in acquiring discounted notes and mortgages.

In 2001, acquired Oregon Potato Company with facilities located in Boardman, OR and Warden, WA - a company which produces fully dehydrated potato flakes, dehydo-frozen potato products and roasted potato products for the industrial trade.

- in 2006, Oregon Potato Company received from Frito-Lay the prestigious Supplier of the Year Award.
- In 2009, Oregon Potato Company received from P & G (Proctor & Gamble) the Supplier of Excellence Award.
- In 2010, Oregon Potato Company again received from P&G the Supplier of Excellence Award.
- In 2012, Greenridge Farming Inc. (one of my farming entities) received the Ranger direct Grower of the Year Award from McCain Foods, Othello.
- In 2013, Oregon Potato Company received General Mills Inc. Supplier Chain Champion Award.

In 2002, acquired Jore Corporation located in Ronan, MT – a very specialized tool and bit company that manufactures drill bits and related accessories for both the retail and industrial trade.

In 2006, Oregon Potato Company acquired an interest in KeyStone Potato Products, LLC located in Hegins, PA – a potato dehydration company that produces fully dehydrated potato products.

In 2008, acquired a 50% interest in Pasco Processing, LLC with J.R. Simplot – a vegetable processing facility that processes frozen corn, carrots, potatoes, onions, peppers, and apples for both the industrial and food service trade. These crops are also produced into various other forms of frozen products such as dehydrofrozen and roasted products. Due to the recent innovation of this company, for which I am primarily responsible, its product lines have grown from several dozen to several hundred with an emphasis on healthier eating.

In 2010, began construction of a new state of the art potato dehydration facility located in Heyburn, ID, which came on line in early April, 2011. This is a very modern processing facility which produces fully dehydrated potato products for both the industrial and food service markets. This is also a joint venture with JR Simplot.

In Feb of 2010, Oregon Potato Company (OPC) acquired ownership of Dickinson Frozen Foods with an individually quick frozen (IQF) onion facility in Fruitland, Idaho and a potato dehydration and roasting facility in Sugar City, Idaho. The addition of these two facilities was a very nice compliment to the existing business of OPC.

In November 2011, OPC acquired another IQF onion facility in Pasco, WA by the name of Freeze Pack. This additional consolidation of the onion manufacturing business greatly enhanced OPC's ability in the manufacturing and selling of vegetable products.

In February 2013, Pasco Processing acquired a vegetable processing business by the name of National Frozen Foods, which includes three processing facilities in Washington State and one in Oregon. By the addition of these facilities, all of the combined affiliates have a total manufacturing capability of over 1.2 billion pounds of vegetable products.

The corporate office of OPC maintains managerial oversight of all the above mentioned entities.

RE-11 ADDENDUM NO. 4

This is an addendum to the Purchase and Sale Agreement dated 11/05/2010, ID No. 11703339, between Lance Funk and/or assignees as Buyer and James and Barbara Hilliard, as Seller.

The undersigned parties hereby agree as follows:

Seller shall deposit with Guaranty Title, Inc. ("Title Company"), as Trustee, the amount of Three Million Dollars (\$3,000,000) from the proceeds due Seller from this sale as supplemented by Seller as necessary to total such amount. In addition, Seller shall use Seller's reasonable best efforts to collect from the existing tenant of the Property rentals payable by such tenant and deposit in escrow the amount of \$200,000 thereof after receipt by Seller for Seller's own account of the first \$200,000 thereof and deposit thereafter 50% of further rents receivable collected by Seller, if any. These funds shall be held in trust pending issuance of an endorsement to the Buyer's policy of title insurance, deleting Exception Nos. 32 and 33 currently shown on the Commitment for Title Insurance. Disbursements of such portions of such deposited funds may be made in the following manner: (1) with the written direction of both Seller and Buyer in exchange for such documentation as is in such form and content as the Title Company deems sufficient to issue an endorsement deleting either or both of such title policy exceptions, and/or (2) in the event any deposited funds remain with Guaranty Title, Inc. after exhaustion of all of Seller's remedies and defenses and of all appeals therefrom with respect to the removal of the title matters disclosed in the exceptions, then Company shall have the option to interplead such funds into a Judicial District Court for the State of Idaho proceeding.

Upon completion of such litigation and appeals, these funds shall be available to the extent determined by a court of competent jurisdiction of the amount of purchaser's damage, if any, for loss or delay of possession of real estate purchased herein.

To the extent the terms of this addendum modify or conflict with any provisions of the Purchase and Sale Agreement including all prior addendums or counteroffers, these terms shall control. All other terms of the Purchase and Sale Agreement, including all Addendums or Counteroffers not modified by this addendum shall remain the same. Upon its execution by both parties, this agreement is made an integral part of the aforementioned Purchase and Sale Agreement. This addendum may be executed in one or more counterparts, each of which shall be deemed an original and may be executed and transmitted by facsimile or e-mail, and when so executed and transmitted shall constitute an original and binding agreement.

- This Agreement is made between REDACTED and grower and/or landlord listed below ("GROWER"). It is agreed:
1. **Real property ownership.** GROWER warrants that he/she is the owner of the land upon which the crop is grown or that the owner is the Landlord listed below and the Landlord agrees to this agreement.
 2. **Assent to plant.** GROWER agrees to plant 1.75% cover. Contract options are listed below. Payment will be on No. 1 clean basis. No. 2 or less beans will not qualify for these programs. GROWER must harvest by July 1, 2012 to qualify for programs. A tolerance allowance will be paid at \$0.10 per cwt per acre, one way, on _____ sales. REDACTED
 3. **Storage.** No storage will be charged for product placed in option 1, or option 2. Any open market beans will require loaded storage charges.
 4. **Clean out.** GROWER will be paid for the quantity of beans purchased which shall be the net weight of beans received at REDACTED or authorized receiving station. The net weight is gross weight less a percentage called "clean out" which shall be determined by sample, and shall include but not be limited to dirt, culls, rocks, etc.
 5. **Seed.** REDAC will sell seed for planting to the GROWER at \$60.00 per cwt. GROWER hereby grants a security interest to REDAC as the secured party for the amount of this seed until GROWER pays for the seed in full. If the GROWER suffers a crop failure, the GROWER will be responsible for seed payment to REDAC.
 6. **Other terms.** GROWER agrees to avoid commingling any other types or sub-lots of beans. Mixed product will be subject to rejection. REDAC reserves the right to reject product with quality problems that render it, in the opinion of REDAC, unsaleable. The parties agree that this Agreement supersedes all prior agreements regarding its subject matter and may not be modified except in writing signed by both parties; and that this Agreement is binding upon the parties hereto and their respective heirs, personal representatives, devisees and assigns.
 7. **Disputes.** In the event of a dispute regarding the subject matter of this agreement the parties agree to resolve this difference first by negotiation and then if negotiation is unsuccessful by binding arbitration. Both mediation and arbitration shall be governed by the Rules and Regulations of the American Arbitration Association. The prevailing party in any dispute, whether resolved by mediation, arbitration or litigation, shall be paid an amount (as determined by the mediator, arbitrator or court) for reasonable attorney's fees and costs. No claim shall be paid from the Commodity Indemnity Fund pursuant to Section 69-263, Idaho Code, if a producer files his claim more than one hundred eighty (180) days from the date the contract is executed.

- (i) **Option 1. (Quality Marketing Program)** Product must be placed in two or more windows. (1) REDAC agrees to pay 1.50 per cwt over the REDAC average board price if product is placed in two windows, or (2) REDAC agrees to pay \$1.50 per cwt over the REDAC average board price if product is placed in three windows, or (3) REDAC agrees to pay \$1.50 per cwt over the REDAC average board price if product is placed in four windows. Equal amounts must be placed in each window. REDAC agrees to pay GROWER ten working days from the end of each window. Contract price will be REDAC average board price per cwt plus \$1.50 (Grower) and/or \$1.50 (Landlord).
